DETERMINATION > INTERNATIONAL TAX > DISCLOSURE EXEMPTIONS

2025 International tax disclosure exemption

Issued: 31 March 2025

ITR36

Introduction

Section 61 of the Tax Administration Act 1994 ("TAA") requires taxpayers to disclose interests in foreign entities.

Section 61(1) of the TAA states that a person who has a control or income interest in a foreign company or an attributing interest in a foreign investment fund ("FIF") at any time during the income year must disclose the interest held. In the case of partnerships, disclosure needs to be made by the individual partners in the partnership. The partnership itself is not required to disclose.

Section 61(2) of the TAA allows the Commissioner of Inland Revenue to exempt any person or class of persons from this requirement if disclosure is not necessary for the administration of the international tax rules (as defined in section YA 1) contained in the Income Tax Act 2007 ("ITA").

To balance the revenue forecasting and risk assessment needs of the Commissioner with the compliance costs of taxpayers providing the information, the Commissioner has issued an international tax disclosure exemption under section 61(2) of the TAA that applies for the income year corresponding to the tax year ended 31 March 2025. This exemption may be cited as "International Tax Disclosure Exemption ITR36 "("the 2025 disclosure exemption") and the full text appears at the end of this item.

Scope of exemption

The scope of the 2025 disclosure exemption is the same as the 2024 disclosure exemption.

Application date

This exemption applies for the income year corresponding to the tax year ended 31 March 2025.

Summary

In summary, the 2025 disclosure exemption **removes** the requirement of a resident to disclose:

- An interest in a foreign company if the resident has an income interest of less than 10% in that company and either that income interest is not an attributing interest in a FIF or it falls within the $50,000 de minimis exemption (see section CQ 5(1)(d) and section DN 6(1)(d) of the ITA). The de minimis exemption does not apply to a person that has opted out of the de minimis threshold by

including in the income tax return for the income year an amount of FIF income or loss.

- If the resident is not a widely-held entity, an attributing interest in a FIF that is a direct income interest of less than 10%, if the foreign entity is incorporated (in the case of a company) or otherwise tax resident in a treaty country or territory, and the fair dividend rate or comparative value method of calculation is used.
- If the resident is a widely-held entity, an attributing interest in a FIF that is a direct income interest of less than 10% (or a direct income interest in a foreign PIE equivalent) if the fair dividend rate or comparative value method is used for the interest. The resident is instead required to disclose the end-of-year New Zealand dollar market value of all such investments split by the jurisdiction in which the attributing interest in a FIF is held or listed.

The 2025 disclosure exemption also removes the requirement for a non-resident or transitional resident to disclose interests held in foreign companies and FIFs.

Commentary

Generally, residents who hold an income interest or a control interest in a foreign company, or an attributing interest in a FIF are required to disclose these interests to the Commissioner. These interests are considered in further detail below.

Attributing interest in a FIF

A resident is required to disclose an attributing interest in a FIF if FIF income or a FIF loss is calculated using one of the following calculation methods:

- attributable FIF income, deemed rate of return or cost methods; or
- fair dividend rate or comparative value methods, if the resident is a "widely-held entity"; or
- fair dividend rate or comparative value methods, if the resident is not a “widely-held entity” and either the foreign entity is incorporated or otherwise tax resident in a country or territory with which New Zealand does not have a double tax agreement in force as at 31 March 2024
- or the resident has a direct income interest of 10% or more.

For the purpose of this disclosure exemption, the term "double tax agreement" does not include tax information exchange agreements or collection agreements and is limited to the double tax agreements in force as at 31 March 2025 with the 40 countries or territories listed below.

Australia	Indonesia	Slovak Republic
Austria	Ireland	Singapore
Belgium	Italy	South Africa
Canada	Japan	Spain
Chile	Korea	Sweden
China	Malaysia	Switzerland
Czech Republic	Mexico	Taiwan
Denmark	Netherlands	Thailand
Fiji	Norway	Turkey
Finland	Papua New Guinea	United Arab Emirates
France	Philippines	United Kingdom
Germany	Poland	United States of America
Hong Kong	Russian Federation	Viet Nam
India	Samoa	

For the purpose of this disclosure exemption, a "widely-held entity" is an entity which is a:

- portfolio investment entity (this includes a portfolio investment-linked life fund); or
- widely-held company; or
- widely-held superannuation fund; or
- widely-held group investment fund ("GIF").

Portfolio investment entity, widely-held company, widely-held superannuation fund and widely-held GIF are all defined in section YA 1 of the ITA.

The disclosure required, by widely-held resident entities, of attributing interests in FIFs in which the resident has a direct income interest of less than 10% (or a direct income interest in a foreign PIE equivalent) and for which they use the fair dividend rate or the comparative value method of calculation is that, for each calculation method, they disclose the end-of-

year New Zealand dollar market value of investments split by the jurisdiction in which the attributing interest in a FIF is held, listed, organised or managed.

In the event the jurisdiction is not easily determined, a further option of a split by currency in which the investment is held will also be accepted as long as it is a reasonable proxy - that is at least 90-95% accurate - for the underlying jurisdiction in which the FIF is held, listed, organised or managed. Investments denominated in euros will not be able to meet this test and so euro denominated investments will need to be split into the underlying jurisdictions.

FIF interests

The types of interests that fall within the scope of section 61(1) of the TAA are:

- rights in a foreign company (a company includes any entity deemed to be a company for the purposes of the ITA (e.g. a unit trust))
- rights in a foreign superannuation scheme held by a person as a beneficiary or member, if the person acquired the interest before 1 April 2014 and treated the interest as a FIF interest in a return of income filed before 20 May 2013 and for all subsequent income years
- rights in a foreign superannuation scheme held by a person as a beneficiary or member, if the person's interest in the scheme was first acquired whilst the person was tax resident of New Zealand
- rights to benefit from a life insurance policy offered and entered into outside New Zealand
- rights in an entity specified in schedule 25, part A of the ITA.

However, interests that are exempt (under sections EX 31 to EX 43 of the ITA) from being an attributing interest in a FIF do not have to be disclosed. The following is a summary of these exemptions:

- certain interests in Australian resident companies included on the official list of the Australian Stock Exchange and required to maintain a franking account (refer to Inland Revenue's website ird.govt.nz (keyword: other exemptions))
- certain interests in Australian unit trusts that have a New Zealand RWT proxy and either a high turnover or high distributions
- interests held by a natural person in foreign superannuation schemes that are an Australian approved deposit fund, Australian exempt public sector superannuation scheme, Australian regulated superannuation fund or Australian retirement savings account
- income interests of 10% or more in controlled foreign companies ("CFCs") (although separate disclosure is required of these as interests in foreign companies – refer below)

- certain interests of 10% or more in foreign companies that are treated as resident, and subject to tax, in Australia (although separate disclosure is required of these as interests in foreign companies – refer below)
- interests in certain unlisted grey-list companies which have migrated out of New Zealand for a year which begins within 10 years of that migration, where the person has held the interests continuously since the migration and the company has retained a significant presence in New Zealand through a fixed establishment
- interests in certain unlisted grey-list companies which hold more than 50% of a New Zealand company for a year which begins within 10 years of the company first holding that 50%, where the New Zealand company has retained a significant presence in New Zealand
- certain interests in grey-list companies resulting from shares acquired under a venture investment agreement
- interests in certain grey-list companies resulting from the acquisition of shares under certain employee share schemes
- certain interests held by natural persons in FIFs located in a country where exchange controls prevent the person deriving amounts from the interests, or from disposing of the interests, in New Zealand currency or consideration readily convertible to New Zealand currency.
- certain interests in foreign superannuation schemes or life insurance policies (offered and entered into outside New Zealand) held by natural persons who acquired the interests when a non-resident or transitional resident
- beneficial interests in foreign superannuation schemes which are not FIF superannuation interests
- certain interests in pensions or annuities provided by FIFs and held by natural persons who acquired the interests when a non-resident (or in certain cases, a resident) (see Inland Revenue's guide Overseas pensions and annuity schemes (IR257) for more information)

De minimis

Interests of less than 10% in foreign companies which are attributing interests in a FIF held by a natural person not acting as a trustee also do not have to be disclosed if the total cost of the interests is $50,000 or less at all times during the income year. This disclosure exemption is made because no FIF income under section CQ 5 of the ITA or FIF loss under section DN 6 of the ITA arises in respect of these interests.

This de minimis exemption does not apply to a person who has included in the income tax return for the year a FIF income or loss. Please note that a person opting out of the de minimis threshold is generally required to continue to apply the FIF rules in each subsequent

tax year. Where a person has included FIF income or loss from attributing interests in FIFs where the total cost was $50,000 or less in 1 of the preceding 4 income years, they will be required to apply the FIF rules in the current year.

Format of disclosure

The forms for the disclosure of FIF interests are as follows:

- IR443 form for the deemed rate of return method
- IR447 form for the fair dividend rate method (for individuals or non-widely-held entities)
- IR448 form for the comparative value method (for individuals or non-widely-held entities)
- IR449 form for the cost method
- IR458 spreadsheet form (this spreadsheet form can be used to make electronic disclosures for all methods)
- myIR income tax return attachment form (this form can be used to make electronic disclosures for all methods)

The IR458 spreadsheet and myIR income tax return attachment forms, which are the only disclosure options for the fair dividend rate and comparative value methods for widely-held entities, must be filed online. Disclosure of FIF interests by widely-held entities using the fair dividend rate or comparative value methods may be made by country rather than by individual investment where the direct income interests are less than 10% (or are direct income interests in a foreign PIE equivalent).

If you choose the spreadsheet option you will be able to save the form as a working paper on your computer. When completed, submit the form by logging into your myIR account and uploading it as part of the electronic income tax return filing process, or by logging into your myIR account and attaching it to a web message with 'FIF disclosure' in the subject line.

Alternatively, you can complete the myIR income tax return attachment disclosure form online when preparing your income tax return electronically in myIR.

The IR443, IR447, IR448, IR449 and IR458 forms can be found at ird.govt.nz/income-tax/income-tax-for-businesses-and-organisations/types-of-business-income/foreign-investment-funds-fifs/file-a-foreign-investment-fund-disclosure. Click 'Other ways to do this' on this web page to access the IR458 spreadsheet form.

Income interest of 10% or more in a foreign company

A resident is required to disclose an income interest of 10% or more in a foreign company. This obligation to disclose applies to all foreign companies regardless of the country of residence. For this purpose, the following income interests need to be considered:

a) an income interest held directly in a foreign company

b) an income interest held indirectly through any interposed foreign company

c) an income interest held by an associated person (not being a CFC) as defined by subpart YB of the ITA.

To determine whether a resident has an income interest of 10% or more for CFCs, sections EX 14 to EX 17 of the ITA should be applied. To determine whether a resident has an income interest of 10% or more in any entity that is not a CFC, for the purposes of this exemption, sections EX 14 to EX 17 should be applied to the foreign company as if it were a CFC.

Format of disclosure

The forms for disclosure of all interests in a CFC are:

- IR458 spreadsheet form, or
- myIR income tax return attachment form

If you choose the spreadsheet option you will be able to save the form as a working paper on your computer. When completed, submit the form by logging into your myIR account and uploading it as part of the electronic income tax return filing process.

Alternatively, you can complete the myIR income tax return attachment disclosure form online when preparing your income tax return electronically in myIR.

The IR458 spreadsheet form must be accessed online at www.ird.govt.nz (keyword: IR458).

Please note that electronic filing is a mandatory requirement for CFC disclosure

Overlap of interests

It is possible that a resident may be required to disclose an interest in a foreign company which also constitutes an attributing interest in a FIF. For example, a person with an income interest of 10% or greater in a foreign company that is not a CFC is strictly required to disclose both an interest held in a foreign company and an attributing interest in a FIF.

To meet disclosure requirements, only one form of disclosure is required for each interest. If the interest is an attributing interest in a FIF, then the appropriate disclosure for the calculation method, as discussed previously, must be made.

In all other cases, where the interest in a foreign company is not an attributing interest in a FIF, the IR458 spreadsheet form or myIR income tax return attachment form for CFCs must be filed.

Interests held by non-residents and transitional residents

Interests held by non-residents and transitional residents in foreign companies and FIFs do not need to be disclosed.

This would apply for example to an overseas company operating in New Zealand (through a branch) in respect of its interests in foreign companies and FIFs; or to a transitional resident with interests in a foreign company or an attributing interest in a FIF.

Under the international tax rules, non-residents and transitional residents are not required to calculate or attribute income under either the CFC or FIF rules. Therefore, disclosure of non-residents' or transitional residents' holdings in foreign companies or FIFs is not necessary for the administration of the international tax rules and so an exemption is made for this group.

Persons not required to comply with section 61 of the Tax Administration Act 1994

This exemption may be cited as "International Tax Disclosure Exemption ITR35".

1 Reference

This exemption is made under section 61(2) of the Tax Administration Act 1994 (“TAA”). It details interests in foreign companies and attributing interests in foreign investment funds (“FIFs”) in relation to which any person is not required to comply with the requirements in section 61 of the TAA to make disclosure of their interests, for the income year ended 31 March 2025.

2 Interpretation

For the purpose of this disclosure exemption:

- to determine an income interest of 10% or more in a foreign company, sections EX 14 to EX 17 of the Income Tax Act 2007 (“ITA”) apply for interests in controlled foreign companies (“CFCs”). In the case of attributing interests in FIFs, those sections are to be applied as if the FIF were a CFC, and
- “double tax agreement” means a double tax agreement in force as at 31 March 2024 in one of the 40 countries or territories as set out in the commentary.

The relevant definition of "associated persons" is contained in subpart YB of the ITA.

Otherwise, unless the context requires, expressions used have the same meaning as in section YA 1 of the ITA.

3 Exemption

i. Any person who holds an income interest of less than 10% in a foreign company, including interests held by associated persons, that is not an attributing interest in a FIF, or that is an attributing interest in a FIF in respect of which no FIF income or loss arises due to the application of the de minimis exemption in section CQ 5(1)(d) or section DN 6(1)(d) of the ITA , is not required to comply with section 61(1) of the TAA for that person's interests in the foreign company and that income year.

ii. Any person who is a portfolio investment entity, widely-held company, widely-held superannuation fund or widely-held GIF, who has an attributing interest in a FIF, other than a direct income interest of 10% or more in a foreign company that is not a foreign PIE equivalent, and uses the fair dividend rate or comparative value calculation method for that interest, is not required to comply with section 61(1) of the TAA in respect of that interest and that income year, if the person discloses the end-of-year New Zealand dollar market value of investments, in an electronic format prescribed by the Commissioner, split by the jurisdiction in which the attributing interest in a FIF is held, organised, managed or listed.

iii. Any person who is not a portfolio investment entity, widely-held company, widely-held superannuation fund or widely-held GIF, who has an attributing interest in a FIF, other than a direct income interest of 10% or more in a foreign company, and uses the fair dividend rate or comparative value calculation method is not required to comply with section 61(1) of the TAA in respect of that interest and that income year, to the extent that the FIF is incorporated or tax resident in a country or territory with which New Zealand has a double tax agreement in force at 31 March 2024.

iv. Any non-resident person or transitional resident who has an income interest or a control interest in a foreign company or an attributing interest in a FIF in the income year corresponding to the tax year ending 31 March 2024, is not required to comply with section 61(1) of the TAA in respect of that interest and that income year if either or both of the following apply:

- no attributed CFC income or loss arises in respect of that interest in that foreign company under sections CQ 2(1)(d) or DN 2(1)(d) of the ITA; and/or
- no FIF income or loss arises in respect of that interest in that FIF under sections CQ 5(1)(f) or DN 6(1)(f) of the ITA.

This exemption is made by me acting under delegated authority from the Commissioner of Inland Revenue pursuant to section 7 of the TAA.

This exemption is signed on 31 March 2025.

Glen Holbrook
